ML2023Spring HW6 Report

<CSIE> <許軒輔>

<410985014>

Public Score	Private Score
0.95839	0.95469

The methods I used to pass the strong baselines include:

1. Change to conv_autoencoder

2. Remove one Conv2d to let the model be smaller

3. Move last Batchnorm2d behind the activative function tanh
